

58/A

THE
RUBBER RESEARCH INSTITUTE
OF SRI LANKA

QUARTERLY JOURNAL

VOLUME 50

1973

RUBBER RESEARCH INSTITUTE OF SRI LANKA
Dartonfield, Agalawatta,
Sri Lanka.

CONTENTS

VOL. 50, PARTS 1 AND 2 (MARCH/JUNE)

	PAGE
ADDRESS OF WELCOME—by D. Jayasiri Perera (<i>Chairman, Rubber Research Board</i>)	1
OPENING ADDRESS TO THE CONFERENCE—by Hon. Sirimavo R. D. Bandaranaike, P. M.	4
INAUGURAL ADDRESS—by the Hon. Dr. Colvin R. de Silva (<i>Minister of Plantation Industries</i>)	7
SCOPE OF CONFERENCE—by O. S. Peries (<i>Director, Rubber Research Institute of Sri Lanka</i>)	11
A CRITICAL EVALUATION OF THE RESULTS OF ETHREL TRIALS by L. B. Chandrasekera	12
AN ASSAY OF GROWTH INHIBITORS IN SEED OIL—AND NORMAL AND DISEASED BARK OF <i>HEVEA</i> —by C. M. B. Ratnayake	19
USE OF RAINGUARD FOR RUBBER TREES—by R. Satchuthananthavale	28
ECONOMIC EVALUATION OF TAPPING SYSTEMS—by S. D. Wimalaratne	40
AGRONOMIC RESEARCHES OF THE IRCA IN EXPLOITATION by P. Gener—Ch. J. du Plessix (<i>Institute de Recherches sur le caoutchouc en Afrique</i>)	55
MANAGEMENT OF RUBBER SOILS FOR MAXIMUM YIELDS by C. G. Silva	60
RECENT DEVELOPMENTS IN THE NUTRITION OF <i>HEVEA</i> IN WEST MALAYSIA—by E. Pushparajah (<i>Rubber Research Institute of Malaysia</i>)	68
TRENDS IN THE IMPROVEMENT OF RUBBER PLANTING MATERIAL WITH PARTICULAR REFERENCE TO SRI LANKA—by D. M. Fernando	84
<i>HEVEA</i> TISSUE CULTURE—by R. Satchuthananthavale	91
RELATION BETWEEN GROWTH HABIT AND YIELD IN <i>HEVEA</i> CULTIVARS IN NORTH SUMATRA—by L. A. Napitupulu (<i>Balai Penelitian Perkebunan Medan (RISPA), Indonesia</i>)	98

CONTENTS

VOL. 50, PARTS 3 AND 4 (SEPTEMBER/DECEMBER)

	PAGE
NATURAL RUBBER IN THE CHANGING TECHNOLOGY OF THE RUBBER MANUFACTURING INDUSTRY—by Leonard Mullins (<i>Director, Malaysian Rubber Producers' Research Association, U.K.</i>)	109
THE USE OF PAPAIN AS A BIOLOGICAL COAGULANT FOR NATURAL RUBBER LATEX—by M. Nadarajah, P. A. J. Yapa, C. G. Balasingham and S. Kasinathan	134
PRODUCTION OF TECHNICALLY SPECIFIED RUBBER (TSR) BY THE CENAT PROCESS—by D. C. Wickremasinghe and S. W. Karunaratne	143
COAGULATION OF NATURAL RUBBER LATEX WITH HYDROCHLORIC ACID (HCl)—by S. W. Karunaratne and K. A. Piyadasa	151
PREPARATION AND USES OF CYCLISED RUBBER AND OF CHLORINATED RUBBER—by M. Nadarajah, H. Narangoda, C. G. Balasingham, J. K. Kirubakaran and P. P. Jayasinghe	157
PLANTATION DEVELOPMENTS IN NATURAL RUBBER PROCESSING —by Chin Peng Sung, Cheong Sai Fah and Soh York Beng (<i>Rubber Research Institute of Malaysia</i>)	166
GRAFT POLYMERISATION OF NATURAL RUBBER—by M. Selvaratnam, S. Suseeladevy and S. Sotheeswaran (<i>University of Sri Lanka, Peradeniya Campus</i>)	181
THE ESTABLISHMENT OF RUBBER-BASED INDUSTRIES IN A DEVELOPING COUNTRY—by R. K. Matthan (<i>Polymer Consultancy Services, Madras, India</i>)	194
THE CONTROL OF WHITE ROOT DISEASE IN SRI LANKA by G. W. Liyanage and O. S. Peries	201
A CRITICAL STUDY OF THE USE OF WEATHER DATA FOR THE ECONOMIC CONTROL OF <i>HEVEA</i> DISEASES—by O. S. Peries	208
SOUTH AMERICAN LEAF BLIGHT: CHANCES OF INTRODUCTION AND LIKELY BEHAVIOUR IN ASIA—by B. Sripathi Rao (<i>Rubber Research Institute of Malaysia</i>)	218
RECENT EXPERIMENTS ON THE CONTROL OF ABNORMAL LEAF FALL DISEASE OF RUBBER IN INDIA—by P. N. Radhakrishna Pillai and M. K. George (<i>Rubber Research Institute of India</i>)	223
OBSERVATIONS ON <i>PHYTOPHTHORA</i> DISEASES OF <i>HEVEA</i> by V. Satchuthananthavale and D. M. Dantanarayana	228
IMPROVING THE VIABILITY OF THE NATURAL RUBBER INDUSTRY OF SRI LANKA—by A. B. Dissanayake	244
THE IMPACT OF CURRENT RESEARCH ON THE DEVELOPMENT OF THE NATURAL RUBBER INDUSTRY—by O. S. Peries	256
